

MULTISERVICE

**Multiple output
coin operated machine**

2 models available: 2 e 6 outputs

**Rugged machine with heavy chassis,
ideal for unattended outdoor areas**

Useful luminous timeout display

Coin operated machine especially featured for timed service with payment in multiple output activations, such as laundry or carwash applications. MULTISERVICE machine is powered with a microprocessor based electronics, that control timings and all operating functions. Timings setup is very simple and can be operated from the owner in easy way. MULTISERVICE provides 2 and 6 outputs, depending on product model. Electronic contactless key also available for payment on the same model machine. The machine increments timings every coin is inserted (when cost reached) while timings running
