

SUNSET

Token operated machine

External push-button with "pause" function to freeze timings

Easy setup (timings and cost) w/o any external programmers

Abs case

Token operated machine especially featured as a shower controller or other timed service with payment. SUNSET machine is powered with a microprocessor based electronics, that control timings and all operating functions. Timings setup is very simple and can be operated from the owner in easy way. SUNSET provides an auxiliary I/O for better service. Aux Input for external push-button with pause function, to freeze the timings while machine working. Aux Output for external flashing alert with "timings near end" function, this output toggle last 10 seconds before timeout. SUNSET increments timings every token is inserted while timings running.

TECHNICAL REFERENCES

Chassis	Abs, white polymer
Protection	IP55 (token accep excl.)
Power Supply	fm 12V to 24V (ac or dc)
Power Ratings	20mA, 80mA (working)
Dimensions	200x250x150 mm
Weight	2kg, packaging excluded
Activation	Printed token
Timer	Microprocessor based
Timings	fm 1 sec. to 24 hrs
Output	No.1 NO 30VDC,1Amp Relay
Input	No.1 NO (pause function)
Tokens Cap.	250 pcs
