

# T-BOX EURO

## Coin operated machine

**Electronic coins mechanism provides better recognition and multi-coin acceptance**

**Easy setup (timings and cost)  
None external programmers required**

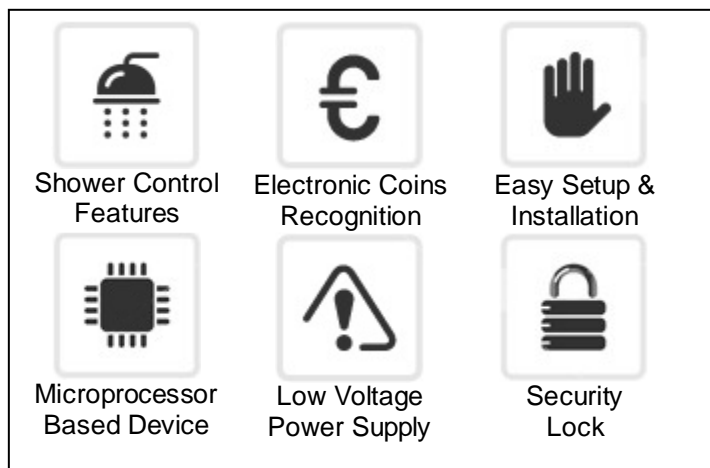

**Stainless steel case**

Coin operated machine especially featured as a shower controller or other timed service with payment.

T-BOX machine is powered with a microprocessor based electronics, that control timings and all operating functions. Timings setup is very simple and can be operated from the owner in easy way.

T-BOX provides an auxiliary I/O for better service: aux Input for external push-button with pause function, to freeze the timings while machine working; aux Output for external flashing alert with "timings near end" function, this output toggle last 10 seconds before timeout.

T-BOX increments timings every coin is inserted (when cost reached) while timings running.

### TECHNICAL REFERENCES

<b>Chassis</b>	Aisi304, Stainless Steel
<b>Protection</b>	IP55
<b>Power Supply</b>	fm 12V to 24V (ac or dc)
<b>Power Ratings</b>	20mA, 80mA (working)
<b>Dimensions</b>	200x300x150 mm
<b>Weight</b>	5kg, packaging excluded
<b>Activation</b>	Currency coins (EUR, Std)
<b>Coins recognition</b>	Electronics, accepts fm 0.10 to 2.00 €
<b>Timings</b>	fm 1 sec. to 24 hrs
<b>Output</b>	No.1 NO 30VDC, 1Amp Relay
<b>Input</b>	No.1 NO (pause function)
<b>Tokens Cap.</b>	250 pcs
